

Weakley County School System Offers Services for Students with Disabilities

The Weakley County School System offers a wide variety of services to students with disabilities from age three through twenty-one. In accordance with state and federal laws, each student in special education is provided a free, appropriate, public education in the least restrictive environment.

The mission of the special education division of Weakley County Schools is to enforce the belief that "all children can learn." Our purpose is to provide each student with a disability in our school system with an individualized education program that is designed to provide appropriate educational/development services.
